PUBLIC INFORMATION MEETING

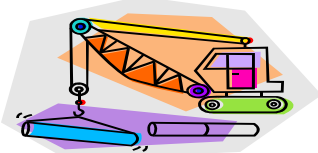

**August 26, 2010
Open House from 6:00 P.M.
until 8:00 P.M.**

**At Tarpon Springs Community Center
400 Walton Street, Tarpon Springs
For directions Call (727) 938-3711**

Lake Tarpon Sewer System Project PHASES 2A&2B

Extension of Wastewater Treatment Services

In 2000 the City of Tarpon Springs, completed an objective and scientific survey of all areas within the City limits not serviced by our wastewater treatment program. This study has resulted in your area being identified as the highest priority for continuation of the extension of service based on various environmental data and the potential for the project to have a very positive impact upon the surrounding area, including Lake Tarpon.

Phase 1 of the Lake Tarpon Sanitary Sewer and Collection System was completed in 2009.

Phases 2A & 2B, are currently in the design phase with construction of Phase 2A scheduled to begin late this year. A map of the target area appears on page 1 of this pamphlet.. The map outlines the general project area. Customers within this area are identified to be provided with sewer service as part of this project.

As future funding becomes available, additional phases of sewer installation will be completed in various areas of the City.

PUBLIC INFORMATION MEETING

August 26, 2010

Open House from 6:00 P.M.
until 8:00 P.M.

At Tarpon Springs Community Center
400 Walton Street, Tarpon Springs

What are the Benefits ?

The extension of wastewater treatment services to an area generally increases property values and in this particular area, it will have a positive impact upon Lake Tarpon and the surrounding area.

What is the purpose of this meeting?

This meeting will provide information and a description of the Lake Tarpon Sewer System Phases 2A & 2B project, a breakdown of the estimated costs and user charges, the proposed vacuum sewer system and environmental impacts.
