Dear Mr. DiPasqua:

Cardno TBE recently received the requested data related to the former on-site domestic wastewater treatment plant (WWTP) from the Florida Department of Environmental Protection (received November 16, 2011). The data appears to address the recognized environmental concern (REC) identified in the recently-completed Phase I ESA prepared by Cardno TBE as REC No. 1.

No other identified RECs in the Phase I ESA are impacted by this data, nor is the proposed Phase 2 scope significantly impacted (other than one proposed sample location).

If you have any questions or need any additional information, please do not hesitate to call.

Sincerely,

A handwritten signature in blue ink that reads "Shawn Lasseter".
