TO: Tarpon Springs Board of Commissioners

FROM: Parks & Recreation Advisory Board

RE: The former Linger Longer RV Park

The Parks and Recreation Advisory Board took the opportunity to tour the property formerly known as the Linger Longer RV Park.

The Advisory Board has come to the conclusion that this parcel with its boat ramp, docks and 20 or so acres has the potential to become a real jewel in the Tarpon Springs Park System.

One of the properties significant features is its ability to enhance boat launching and adequate related parking. There are endless possibilities on how to develop or improve the balance of the property.

We collectively agree that it may be a long time coming, if ever, that we will have the opportunity to purchase a waterfront property with so much potential. As a park this property will enhance the quality of our community for decades to come.

We recommend the purchase of the property based on the price perimeters given to us by the City Staff and proper vetting by the Board of Commissioners.

Yours truly,

Rex Wilkinson  
Chairman  
Parks and Recreation Advisory Board
