ROLL OFF APPLICATION & INFORMATION FORM

Arrangements should be made at least 48 hours prior to delivery of container. Due to the size and weight of the equipment, it is the responsibility of the owner of the property to provide a safe, accessible area, which is clearly marked for proper placement. A 30-yard container cannot be ordered if you are disposing of extremely heavy materials such as cement, rock or roofing materials.

Once the container has been placed at the designated property, it becomes the customers' responsibility to maintain service within a reasonable timeframe, a container that is filled to capacity will be pulled from the site within 2 weeks following a written notice sent to the person whose signature appears on this form. The account will be billed to reflect each pull. A container with no activity over a two-month period will be subject to a rental fee.

The phone number to call for service is: (727) 572-8779

These rates are subject to change October 1st and are applicable to all containers.

Roll off charges are as follows (**circle one**):

30 yard*	\$ 334.45 per pull	plus	\$ 45.00 per ton - tipping fee
20 yard	\$ 334.45 per pull	plus	\$ 45.00 per ton - tipping fee

*If you order a 30 yd and there is not one available, do you want a 20 yd instead or do you want to wait for a 30 yd to be available? _____

The following deposit is required prior to delivery of roll off :

30 yard	\$ 1300.00
20 yard	\$ 1300.00

All above costs include an administration fee of 20%. Charges will be billed to your Utility account following service.

I have read and understand charges and agree to conditions as stated above.
