This fee shall include the right of interment, staking of burial space, observing placement of monuments, markers and coping on weekdays. This fee does not include opening/closing or other service fees. Prior to purchasing, the purchaser or their designee must view the plots being purchased.

When a grave space is purchased, the purchaser purchases the exclusive right of interment in the burial plot rather than the grave space itself, which remains the sole property of the City and under the sole control of the City.

See Plot and Lawn Crypt Price List Fee Schedule for single in-ground burial spaces for an infant grave (4' x 2'). This amount includes opening and closing fees. If set-up is needed, see Fee Schedule (Other Charges).

The city shall reserve the right to require certain specifications or suppliers for plaques, vases or inscription so as to maintain a consistent appearance.

The objective of this regulation could serve as an incentive for Cemetery plot owners to sell back to the City grave spaces not needed by their families. This would provide needed grave spaces and would be in the best interest of the City and the Cemetery plot owner. Mausoleum crypts, niches and in-ground space(s) must be in the original condition and all memorials removed.
- (8) Immediately after a burial, the City may, at its discretion, reserve adjacent unsold grave(s), crypt(s), niche(s), cremation space(s) or lawn crypt space(s) for a period not to exceed thirty (30) days.

The objective of this regulation is to allow time for relatives to clear the estate. In order to reserve the adjacent burial space, a "Reserve Form" must be filled out and returned to the City Clerk's Office. Under extreme circumstances, an additional extension may be granted upon written request from the purchaser explaining why the extension is needed.
