

ECONOMIC DEVELOPMENT: ADVANCING SITES INFRASTRUCTURE FUND (ASIF)

Powering new investment in marketable sites

Duke Energy's Advancing Sites Infrastructure Fund creates economic opportunities and supports the creation and/or enhancement of new industrial sites throughout our Florida service area. The program encourages new development by offering grant funding to assist with site infrastructure costs on speculative site and building development projects.

Key Features

- Accelerates new product development by leveraging investment and business development efforts
- Helps mitigate developer risk by leveraging the Duke Energy Site Readiness Program
- Funding is eligible for both site and building development costs
- Funds typically support costs associated with demolition, environmental remediation, site preparation, building renovation and infrastructure improvements

Benefits of the Advancing Sites Infrastructure Fund

-  Reduces Risk
-  Saves Time
-  Saves Money

Unlock the power of Duke Energy

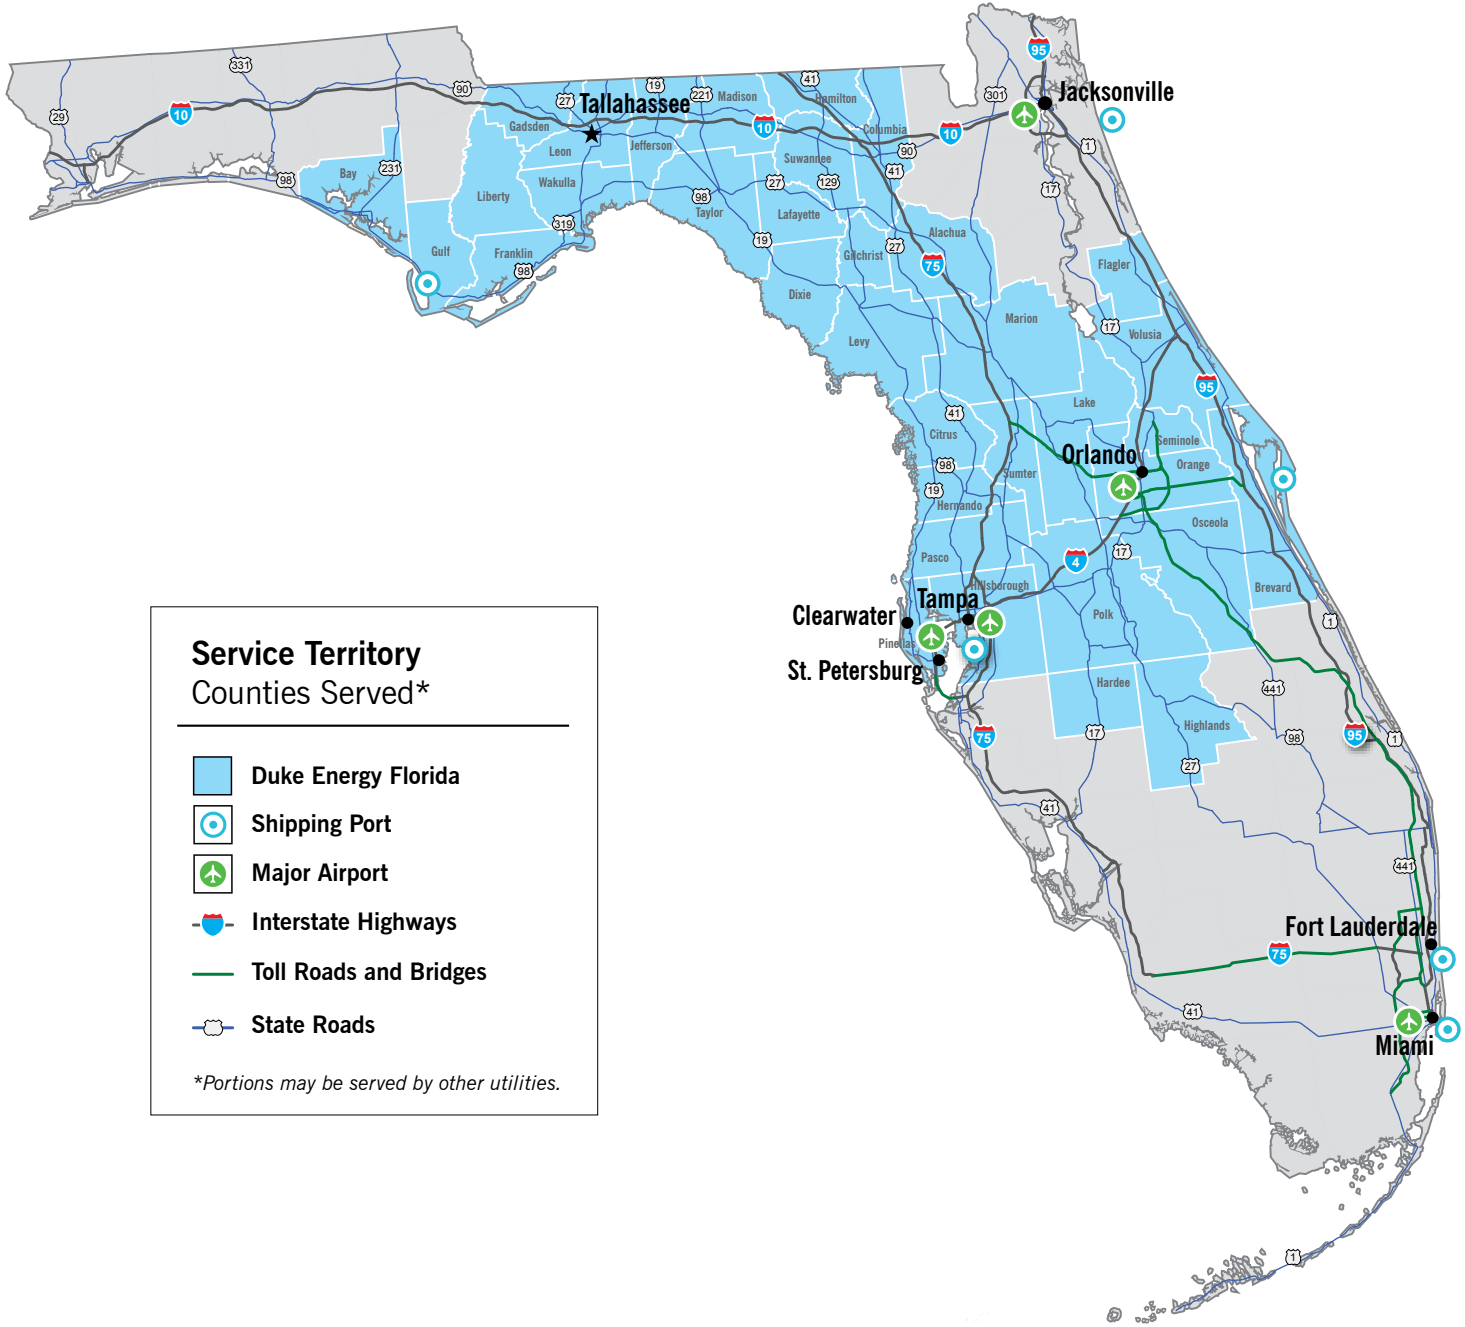

Contact Chris Wimsatt at chris.wimsatt@duke-energy.com for more information about the Advancing Sites Infrastructure Fund.
