**Subject:** Bayshore Drive Sewer Project

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioners,

By engaging in this sewer construction project, the commission has committed a travesty upon the very community that you have pledged to serve.

This sewer project is beyond common sense, let alone proper engineering; and to begin a project that is known to be flawed in other communities is a waste of public revenues and an extortion of private funds. It is irresponsible for the City of Tarpon Commissioners to arbitrarily inflict an inadequate sewer system upon the homeowners. Homeowners will be responsible for maintenance and repair of the system and any sanitizing of our homes when raw sewage backs up inside. This project plans for a system that has been documented to fail, repeatedly, and is currently being replaced in other communities.

It is imperative that this project be stopped, redesigned, and engineered for the proper sustainable waste removal from our personal property.

Sincerely,

Audrey Hentzen

904 Bayshore Drive
